

College of Education Mission and Goals

Mission:

The College of Education will develop leaders for public and private schools and businesses in Texas who, through their leadership, demonstrate service to others and faith-informed decision-making.

Goals:

The College of Education will recruit and retain a highly qualified teaching staff.

The College of Education will maintain a curriculum that is research-based, student-focused, aligned with state and national standards, and rigorous in its content and scope.

The College of Education will provide programs of distinction at both the graduate and undergraduate levels in the fields of Education and Exercise and Sport Science.

Department of Education

Mission:

The Department of Education will provide prospective teachers and administrators with an educational program that is student focused, cutting edge, and exemplary among comparable universities.

Goals:

The Department of Education will maintain a curriculum that is research-based, student-focused, aligned with state and national standards, and rigorous in its content and scope.

The Department of Education will provide programs of distinction at both the graduate and undergraduate level in the field of Education.

Department of EXSS

Mission:

The Department of Exercise and Sport Science will develop leaders for public and private schools and sports-related industries in Texas who, through their leadership, demonstrate service to others and faith-informed decision-making.

Goals:

The Department of Exercise and Sport Science will provide distinctive academic programs which prepare undergraduate and graduate students for professional careers in physical therapy, exercise science, physical education teacher education, sport management, and athletic training.
