About PROSCRIBE

- One of the industry's fastest growing companies
- Offer physicians the use of trained healthcare students to serve as a 2nd pair of hands for accurate recording of medical documentation and other time consuming tasks
- State-of-the-art training program
- Offer a professional scribe program built to increase physician productivity, job satisfaction and most importantly.....PATIENT satisfaction
- "We focus on the Docs, Docs focus on the patients!"

What is a Medical Scribe....

- A physician's partner for transcribing written/verbal communication to medical records based upon the treatment of patients
- Prepares and assembles medical record charts for physician prior to visits
- Capture and enter medical information in real time using either paper or electronic medical record (EMR) documentation
- Recording all diagnostic test results
