## INFORMATION ABOUT THE GRADUATION RATES REPORT

### Introduction.

This information sheet and the NCAA Division III Academic Success Rate (ASR) Report have been prepared by the NCAA, based on data provided by the institution for the Division III voluntary graduation rates reporting program.

The ASR report provides information about two groups of students at the college or university identified at the top of the form: all undergraduate students who were enrolled in a full-time program of studies for a degree and student-athletes who were on an official team roster on or after the first date of competition during the championship season.

The report gives graduation information about the most recent graduating class of students and student-athletes entering as freshmen in 2012-13. The graduation rate (percent) is based on a comparison of the number (N) of students who entered a college or university and the number of those who graduated within six years. For example, if 100 students entered and 60 graduated within six years, the graduation rate is 60 percent.

Two different measures of graduation rates are presented in this report: Federal Graduation Rate and ASR. The freshman-cohort Federal Graduation Rate indicates the percentage of freshmen who entered during a given academic year and graduated within six years. The ASR adds to the first-time freshmen, those students who entered midyear, as well as student-athletes who transferred into an institution. Both the freshman-cohort rate and ASR subtracts students from the entering cohort who are considered allowable exclusions (i.e., those who either die or become permanently disabled, those who leave the school to join the armed forces, foreign services or attend a religious mission). The ASR also subtracts those who left the institution prior to graduation, had athletics eligibility remaining and would have been academically eligible to compete had they returned to the institution.

### ASR Report.

- Graduation Rates Data. The box at the top of the ASR report provides freshman-cohort graduation rates for all students and for student-athletes at this college or university. Additionally, this box provides ASR data for the population of student-athletes. **(Note: When a cell containing cohort numbers includes only one or two students, the data in that cell and one other will be suppressed so that no individual can be identified.)**
  - a. All Students. This section provides the freshman-cohort graduation rates for all full-time, degree-seeking students by race or ethnic group. It shows the rate for men who entered as freshmen in 2012-13 and the four-class average, which includes those who entered as freshmen 2009-10, 2010-11, 2011-12 and 2012-13.

- The same rates are provided for women. The total for 2012-13 is the rate for men and women combined, and the four-class average is for all students who entered in 2009-10, 2010-11, 2011-12 and 2012-13.
- b. Student-Athletes. This section provides the freshman-cohort graduation rates and the ASR for student-athletes in each race and ethnic group who received athletics aid. Information is provided for men and women separately and for all student-athletes.
  - c. Student-Athletes by Sports Categories. This section provides the identified graduation rates as in 1-b for each of the eight sports categories. (The small letters indicate the value of N.)
